ROCKAWAY GRAIN FAN, CELEBRATED

For their Efficiency, Durability, and Ease in Working.

WE WOULD STATE FOR THE INFORMATION of Farmers and the Trade, that our Fan is of the largest size—with six large sieves and screens, made of the best bright wire, on good strong frames. It is made especially for the Southern market, where all implements ought to be of the best and strongest make. We do not hesitate for a moment to say, that our Fan (considering the make, the number and quality of sieves, and the amount and quality of work it will do in a given time) is from \$10 to \$15 cheaper than any in the market. Our Fan is so universally known that it is unnecessary for us to say more than that it has not been beaten in a trial any time during the last eight years, and cannot be beat.

As the present wheat crop is unusually full of

COCKLE, AND CHEAT, AND SMUT, every farmer ought to order one of our Double Screened Rockaway Fans at once, as it is the only Fan in the market that will clean these impurities from the wheat.

The price of our Fans in Baltimore, is \$24. Orders addressed to us will receive prompt attention. A liberal discount to the trade.

We respectfully refer to S. Sands, Esq., ex. Editor "American Farmer," Baltimore, as to the character of our Fan.

J. MONTGOMERY & BROS., Baltimore, Md.

E. D. DRAKE & SON, Agents, STATESVILLE, N. C.

We will order these Fans to be delivered at any point on the N. C. Railroad, from Raleigh to Charlotte, Newbern, Fayetteville, &c. Time will be allowed, if required.

THIRD VOLUME OF THE Iredell Express.

THE "IREDELL EXPRESS" having been published two years, and entered upon a Third Volume, is now presented to the public by the Publishers, who, in addition to hope for increased patronage over any former year, in mechanical execution our sheet will bear a favorable comparison with any journal issued North or South; and it shall be our aim to render it a vehicle at all times well filled with useful and interesting intelligence, of whatever is transpiring in our own country and other portions of the world.

There never was a period in our own country, when newspapers, should have been more universally circulated among the masses than the present era, and he that reads not of the passing events of the day, is an object of pity for his ignorance. One such classed among intelligent and, therefore, useful, citizens! who have eyes but read not, and whose information, perhaps, can be little more than the instinct of dumb animals.
